

At the moment I am climbing ladders and pointing towards it hitting like mad in the hope I splat it into oblivion, trouble is its not working to well in this game, these sometimes are quite hard to kill off.

Left on his own our hero becomes board and starts to stretch and then dance about

Here is a scene directly after I received a password

Watch out for the killer snowball throwing snowmen

Remember on the later levels you can use the joystick diagonally, this is very useful for when on the ropes/pipes to swing and jump off.

Drop from a height and our hero will complain shaking his fist violently at you, fall from a great height and its all over, you will splat on the ground.

Sonically the music is excellent nice bobby music on the intro then down to some hard hitting techno on the first 3 screens the snow man levels start to chill out with lots of white noise and a more relaxed pace of music, sadly my game playing hasn't progressed me onto further levels.

The game would benefit from a text doc to set the scene and help with the control system but as you play it will be obvious how to control your man, it's a very solid release and for the price FREE you would be mad not to download a copy and at least give it a test drive. If this is the sort of game PROTOVISION deem as free just think what the paid for versions are like
